

DR. SEAN LEE

Candidate for California Insurance Commissioner

Scientist • Insurance Executive • Risk Modeling Expert

OVERVIEW

Dr. Sean Lee is a candidate for California Insurance Commissioner, insurance entrepreneur, scientist, and business executive with more than two decades of experience in risk analysis, insurance, financial services, and technology.

PROFESSIONAL EXPERIENCE

Former President & CEO of Antai Global Inc. and insurance executive with extensive experience in insurance pricing systems, risk management, actuarial applications, and financial protection strategies.

EDUCATION AND SCIENTIFIC BACKGROUND

Ph.D. in Physical Oceanography from Texas A&M University. B.S. in Geophysics with Software Engineering studies from USTC. Former researcher involving climate and ocean modeling projects through JPL/NASA and Caltech.

WHY HE IS RUNNING

To restore stability to California's insurance market, protect consumers, improve insurance availability, and strengthen resilience against catastrophic risk.

KEY PRIORITIES

Consumer Protection • Insurance Availability • FAIR Plan Reform • Transparency • Responsible AI • CCRP • Wildfire Resilience

SIGNATURE PROPOSALS

California Insurance Recovery Plan 2026 and the California Catastrophe Reinsurance Partnership (CCRP).

PERSONAL

Dr. Sean Lee lives in Southern California with his spouse, two children, and his parents. As a husband, father, and son, he understands the importance of protecting families from financial uncertainty and catastrophic loss. His campaign is driven by a commitment to ensuring that California families can obtain reliable, affordable insurance coverage in the years ahead.
